\*Restitution policies reimburse uncontracted health care 100% (or 100% of the market conform rate). Speech and language therapy rates in the Netherlands are subject to independent pricing, as no legal maximum rate applies. Each health insurer determines their own market conform rate. That is why reimbursement amounts for speech and language therapy fluctuate, depending on the specific insurer. It is, therefore recommended to contact the insurer to double-check whether sessions will indeed be reimbursed 100% when you are a restitution policy holder.
